DATA SUBJECT ACCESS REQUEST (DSAR) POLICY

1. Introduction

This policy document supplements the data subject access request (DSAR) provisions set out in the Extreme Machines (hereinafter referred to as the "Company") Protection of Privacy Information Manual and provides the process for individuals to use when making an access request, along with the protocols followed by the Company when such a request is received. As a company, we need to collect personal information to effectively carry out our everyday operational functions and services, and in some circumstances, to comply with the requirements of the law and/or regulations. Since we process personal information regarding individuals (data subjects), we are obligated under the Protection Of Personal Information Act 4/2013 and the Promotion of Access to Information Act 2/2000 (POPIA and PAIA) to protect such information, and to obtain, use, process, store and destroy it, only in compliance with the POPIA and PAIA and its principles.

1.1 The Protection Of Personal Information Act 4/2013 and the Promotion of Access to Information Act 2/2000

The Protection Of Personal Information Act 4/2013 and the Promotion of Access to Information Act 2/2000 (POPIA and PAIA) gives individuals the right to know what information is held about them, to access this information and to exercise other rights, including the rectification of inaccurate data. The POPIA and PAIA is a standardised regulatory framework which ensures that personal information is obtained, handled and disposed of properly.

We are obligated under the POPIA and PAIA and South African data protection laws to abide by the principles of the regulation, which ensure that personal information shall be:

EXTREME MACHINES PRIVACY POLICIES

3. adequate, relevant and limited to what is necessary in relation to the purposes for which they are processed ('data minimisation')
4. accurate and, where necessary, kept up to date; every reasonable step must be taken to ensure that personal data that are inaccurate, having regard to the purposes for which they are processed, are erased or rectified without delay ('accuracy')
5. kept in a form which permits identification of data subjects for no longer than is necessary for the purposes for which the personal data are processed ('storage limitation')
6. processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction or damage, using appropriate technical or organisational measures ('integrity and confidentiality')

The POPIA and PAIA regulation also requires that "the Information Officer shall be responsible for, and be able to demonstrate, compliance with the POPIA and PAIA principles" ('accountability'). The Company has adequate and effective measures, controls and procedures in place, that protect and secure your personal information and guarantee that it is only ever obtained, processed and disclosed in accordance with the relevant data protection laws and regulations.

In certain circumstances, you may also have the right to request from the Company, the erasure of personal data or to restrict the processing of personal data where it concerns your personal information; as well as the right to object to such processing. You can use the contact details in section 7 to make such requests.
